THE LECOMPTON UNION, BY A. W. JONES & R. H. BENNETT,

Lecompton, K. T.

We have recently commenced the publication of this large journal at the city of Lecompton, the capitol of Kansas Territory, and from the theorizagement with which we have met this far, we have every reason to believe that it has been established upon a firm basis. We have commenced the publication of the Union, as it were, in the hot-bed of abolitionism, (Douglas county) and it will ever be found battling for the rights of the South and Southern institutions.

Believing the soil and climate of Kansas Territory to be admirably adapted to the institution of Negro Slavery, as it exists in the Southern States, the Union will realously advocate and sustain all honorable measures designed to protect and sustain it in the Territory, and ul-Lecompton, K. T.

Constitution of the future State of Kansas.

The Union will discuss all legitimate measures of public policy freely and fearlessly, with all becoming deference to those entertaining opposite views, but it will handle with "gloves of" the unscrupulouf Higher-Law faction of the Territory, who arrogantly assume to disregard the regular constituted authorities of the land, believing its leaders and dopes to be the deadliest foes to the Union of the States, and enemies alike to God and Mau.

We appeal to our friends, and all conservative men, North and South, and especially in the Southern States, to lend us a helping hand in promoting the circuistion of the Union, as will endeavor so to conduct it as to make it a welcome visiter to the firesides of all conservative and national men.

This town has on the Kanses side of the river supporting it, a large district of the very best lands in the Territory, while on the opposite side of the river there is a large and ferfile bottom, teeming with population. This bottom is of itself sufficient to sustain a town of large size. This is the most accessible point from which the Delaware nation of Indinas can procure their supplies. Delaware is the geares and most accessible point at which the country on the Kansas river can do their receiving an forwarding business. There are a great number of towns on the Kansas that will find it to their interest to make this place their shipping point, among them we would name Osawkes Calhoun and others. As there is a good ferry at this point, emigrants traveling to Kansas Teritory on the great State road from St. Joseph to St. Louis, will find that this is the proper point at which to enter the territory, as by this means they avoid a great deal of unnecessary travel.

This location is high and commanding, hav-ing no stagnant water near to generate disease— from its streets, there is presented to the eye a spendid view of the Missouri river for miles above and below the town, the country in the vicinity presenting a view at once pleasing and

Every inducement will be given to mechanics to make Delaware the place of their choice. We ask each person to examine the place. The merchant will find on an examination, that Delaware is obliged to command a trade not second to any town in the Torritory; from such persons we ask an examination.
